25 November 1969

MEMORANDUM FOR THE RECORD:

SUBJECT: Traffic Survey

1. The CIA Building Manager located twelve traffic counters which we can borrow for two weeks from Arlington County. Arrangements were made by the undersigned to be briefed on their operation, installation, and servicing by Mr. Mathias, Chief, Traffic Maintenance, Arlington County. The briefing will take place when we pick up the counters on 28 November 1969.

2. Mr. [REDACTED] Chief, Building Security Branch, Physical Security Division, advised that he had no objections to our conducting a traffic survey at the entrances and at selected points on the compound. He was asked if the guards at Gate 1 would keep a log of all trucks and buses entering the compound beginning 1 December for two weeks. [REDACTED] stated that he would issue a guard instruction to that effect and that he would advise us if any of the counter hoses became disconnected. He also requested that his Division be informed of the results of the survey.

Signed

[REDACTED]
Building Planning Staff, OL
